## We are more than just a conventional call center

1

### Delivery Tracking Management System

Let us work for your customers by tracking their items, delivery status, complaints of damaged or missing items and giving immediate feedback via online chat

2

### Ticketing System & 24x7

We take care of your customers' complaint all days & nights including holidays.

With a standby disaster recovery site ever ready, we ensure that our customer support services run with minimum interruption in the event of active production site outage

3

### Human Resource Outsourcing

Your ongoing nightmare to recruit, train, manage your own staffs will be a thing of the past, once you outsource these tasks to us and it gives your management team more time to focus on & develop your core business.

We are always happy to leverage our 10 years of call center experiences, talents & technology to empower your business

**CONTACT US TODAY** to learn more about our customised call centre solutions for your business
